I made you up, you were my filmstar,
And you chased me through the trees.
I made you up, gave you the main part,
You went swimming in the sea.

Made up love in a made up world,
Here's the pattern, boy meets girl.
(made up love in a made up)
Made up love in a made up world
Here's the pattern, boy meets girl.
(made up love in a made up)

I made you up, sent for your rescue,
And you held me in those arms.
I made you up, we had a love scene,
And then you said goodbye.

Made up love in a made up world,
Here's the pattern, boy meets girl.
(made up love in a made up)
Made up love in a made up world
Here's the pattern, boy meets girl.

I feed of you, and I read of you,
And i, i, i

Say something more beautiful,
Than pictures see.

You were my filmstar
