Over to you yes its over to you
Perfection was crossed and the world was anew
You will be charged, but first I will laugh
So refer to the past and I'll rip you apart

So here we will stand if we all join our hands
Bring it back, bring it back it is ours to demand
Yeah, open your hearts and we'll reach for the stars
But refer to the past and I will rip you apart

Over to you yes its over to you
We danced in the light as the grey shadow grew
But hey for depart or go back to your start
But refer to the past and I'll rip you apart

So here we will stand if we all join our hands
Bring it back bring it back it is ours to demand
Yeah, open your hearts and we'll reach for the stars
But refer to the past and I will rip you apart

Old, we're old as the moon
Cold, we're cold as a tune

So crack, crack another bowl
Tear another hole, rip another soul
I will take you down
I should have let you get
I think you'll find you left
It all on me

Here we will stand if we all join our hands
Bring it back, bring it back it is ours to demand
Open your hearts and we'll reach for the stars
But refer to the past and we'll rip you apart

Here we will stand if we all join our hands
Bring it back, bring it back it is ours to demand
So open your hearts and we'll reach for the stars
But refer to the past and we'll rip you apart

Here we will stand if we all join our hands and

Bring it back, bring it back it is ours to demand
So open your hearts and we'll reach for the stars
But refer to the past and we'll rip you apart
