She's got you high and you don't even know yet
She's got you high and you don't even know yet
The sun's in the sky, it's warming up your bare legs
You can't deny your looking for the sunset

She's got you high and you don't even know yet
She's got you high and you don't even know yet
It's the search for the time before it leaves without you
Have you lost your mind or has she taken all of yours
too?

What's this about? I figured love would shine through
We've lost romance this world has turned so see
through

Open your mind, believe it's going to come to
Romance alive and hope she's going to tell you

She's got you high and you don't even know yet
She's got you high and you don't even know yet
The sun's in the sky, it's warming up your bare legs
You can't deny your looking for the sunset

What's this about? I figured love would shine through
We've lost romance this world has turned so see
through

Open your mind, believe it's going to come to
Romance alive and hope she's going to tell you

She's got you high
She's got you high
She's got you high

She's got you high
She's got you high
She's got you high

What's this about? I figured love would shine through
We've lost romance this world has turned so see
through

Open your mind, believe it's going to come to
Romance alive and hope she's going to tell you

What's this about? I figured love would shine through

We've lost romance this world has turned so see
through
Open your mind, believe it's going to come to
Romance alive and hope

She's got you high!
