Well I've had enough of living life in cuffs
So give it in
Or give it up
Live now, don't say you'll start tomorrow

I know it ain't ok
For a day
So stay

Well in the light of the day
I think I'm happy to say
I know it's hard to work out
What we're chatting about

But get in or get out
Get in or get

Live now, don't say you'll start tomorrow
I know it ain't for a day

So stay

So stay

I know I'm not enough
I know that you've got somewhere else to be
That's ok, it's just your way
Well I'll take a long walk
Let it be

You've got to set yourself apart
You've got to hope it's not the start

And oh my god
Yeah oh my god
And oh my god
Yeah oh my god

It's happening again
