Since I met you
I've known there's no-one else who could even come
close
And the day that you said
That you would be mine
Meant now I'd be happy till the end of time
I love you more than words could say

And I pray to Good everyday
I thank Him for showing me the way to find you
Now there is nothing but the blue sky.
When I'm with you
Time means nothing it just seems to stand still
Or maybe it just leaves us alone and passes by

I'll stand by you
Now forever we will be together
Cause the day that you said
That you would be mine
Meant now I'd be happy till the end of time
I love you more that words could say

I pray to God everyday, I thank him for showing me the
way to find you
