Well everybody's talkin' 'bout my brand new car,
They say they wanna ride and they wanna go far,
Chorus:
Oh, baby ride in my brand new car,
Won't you come on baby, won't you ride in my brand
new car.
It's got a bright red bonnet, it matches your dress,
Reclining seats and black headrest
Repeat chorus
Turn the radio on, put a tape in the slot,
You can light a cigarette, look at the clock,
Repeat chorus
It's got a dog in the back, that nods his head,
The back seat springs, yeah, just like a bed,
Repeat chorus
Disc brakes all round, power steering too,
Twin carburettors, an ice box in the boot,
Repeat chorus
