AND NOW (Wassup)... INTRODUCING TO THE WORLD  
(Who) MUNGA... HONOREBEL...

Yes, yesssss!

And I came to take my place, never you forget my face  
It's, M to da U to da N-G-A! Fiyah more shot dan di NBA  
Rastafari get the praise when mi pray.  
Di girl dem love when my tune play  
And I came to take my place, never you forget my face  
It's, M to da U to da N-G-A! Fiyah more shot dan the  
NBA  
Rastafari get the praise when mi pray.  
Di gurls dem love when my song play

Good evening, it's a good evening  
Selling dro, making dough, it's a good season.  
Chilling on my block, we having a good reasoning  
Eating some collard greens with some good  
seasoning.

Huh! It's no gimmick when I'm spittin my lyrics  
I give a fuck about those hypocrites and da critics  
The perfect in da mimics, they have never yet seen this  
Cause I'm a fly to the sky if the sky is the limit.

Hopping out of da Civic, I'm throwing bows like Riddick  
It's so miraculous, it's ridiculous,  
They tryna bite me like Dracula  
But I sting dem with my venom cause I'm SOO  
spectacular!

And I came to take my place, never you forget my face  
It's, M to da U to day N-G-A! Fiyah more shot dan di  
NBA  
Rastafari get the praise when mi pray.  
Di girl dem love when my tune play  
And I came to take my place, never you forget my face  
It's, M to da U to da N-G-A! Fiyah more shot dan the  
NBA  
Rastafari get the praise when mi pray.

Di gurls dem love when my song play

And my future is for me to decide, I roll with my queen  
to the side

Black Benz, top down, red, chromed and gleamed to  
da side

Always got my ting to the side; BIG chrome machine to  
da side

Extra magazine to the side, Full four magnum infrared  
beam to the side

So much fool from me to decide, coming, bulging teeth  
to the side

I cast two but he cower to a fool, under my banana with  
a gleam to da side

I keep Marlon to the side, Charleen to the front, Carleen  
to the side

Guess Jeans, Sneaks and Tees, Clean... Cap, leaned to  
the side!

And I came to take my place, never you forget my face  
It's, M to da U to day N-G-A! Fiyah more shot dan di  
NBA

Rastafari get the praise when mi pray.

Di girl dem love when my tune play

And I came to take my place, never you forget my face  
It's, M to da U to da N-G-A! Fiyah more shot dan the  
NBA

Rastafari get the praise when mi pray.

Di gurls dem love when my song play

Yeah! I picked up Marvette in my Carette

A piece of fiyah fell from my spliff and burnt a hole in  
my carpet

Police was on da block, but Munga nuh fret

Cause my dough is one of the biggest and my car is  
one of the fastest

Ha! I was bouncing to some Black Eyed Peas

Just eat some collard greens, brown rice and some  
black eyed peas

Tell squadie don't stop I... PLEASE!

Don't let me have to leave yuh with a black eye, please!

Why! It's so terrific, yet so horrific, I'm so prolific

Sick with it, find my formula and stick with it

I rhyme right to rhyme tight

Fools I told ya'll before, I showed ya'll before!

I'm so rich, cause I'm so slick, I write... so quick

My lines is so sick, my dough... so thick

And my, whole clique be gangstas,  
Dat means da nines don't stick.

And I came to take my place, never you forget my face  
It's, M to da U to day N-G-A! Fiyah more shot dan di  
NBA

Rastafari get the praise when mi pray.

Di girl dem love when my tune play

And I came to take my place, never you forget my face  
It's, M to da U to da N-G-A! Fiyah more shot dan the  
NBA

Rastafari get the praise when mi pray

Di gurls dem love when my song play
