I don't want to work all day,
I don't want you to be my slave,
I don't want you sad and blue,
I just wanna make love to you,
Love to you, love to you, love to you, love to you.
I don't want you cook my bread,
I just want you in my bed,
I don't want your money too,
I just wanna make love to you,
Love to you, love to you, love to you, love to you.

Chorus:

I can tell by the way that you baby talk,
Tell by the way that you walk and walk,
Tell by the way that you treat your man,
I can love you baby it's crying shame.
I don't want to work all day,
I don't want you to be my slave,
I don't want your money too,
I just wanna make love to you,
Love to you, love to you, love to you, love to you.
