Shes a long-legged woman dressed in black,
Dressed in black, dressed in black,
Dressed in black, black, black

Shes a long-legged woman dressed in black,
Dressed in black, dressed in black,
Dressed in black, black, black

Chorus:

Every time I make a move, she tell me no (repeat 3
more times)

Yeah, she knows how to move, how to rock
How to rock, how to rock, how to rock, rock, rock
Yeah, she knows how to move, how to rock
How to rock, how to rock, how to rock, rock, rock

Chorus

Bridge

And she's stoned like a flash in the night
In the night, in the night, in the n-, ni-, night
And she's stoned like a flash in the night
In the night, in the night, in the n-, ni-, night

Every time I make a move, she tell me no
Every time I make a move, she tell me no
Every time I make a move, she tell me no
Every time, every time, every time, every time, every
time, every time

Whoa!

Shes a long-legged woman dressed in black,
Dressed in black, dressed in black,
Dressed in black, black, black

Shes a long-legged woman dressed in black,
Dressed in black, dressed in black,
Dressed in black, black, black

Every time I make a move, she tell me no
Every time I make a move, she tell me no
Every time I make a move, she tell me no (repeat to
fade)
