I saw that woman with the beautiful legs,
I gave her the eye yeah' here's what see said,
She said my friend, everybody is my friend,
She said my friend come an' have a drink on me
Well by the embankment the river was calm,
The moon shone down and she held my arm,
She was my friend, everybody was my friend,
She said my friend come an' have a drink on me
I took her home and she kept me warm,
When I wake up all my money was gone,
She was my friend, everybody was my friend,
She said my friend but she took ev'ry penny I had
Oh yeah, she was my friend, everybody was my friend,
She said my friend but she took ev'ry penny I had,
Yes she did, she was my friend, everybody was my
friend,
She said my friend but she took ev'ry penny I had
