PRIVATE PARADISE

You'll never see me again

'cause I'm going away

Somewhere I can be on my own, all alone

Where all is calm, see you took too much from me

And you left me wasted, you drank all my bloody wine

And you never even let me taste it

Chorus

I'm going away somewhere I can be on my own

All alone, where all is calm

Here is my heart rapting my soul

It doesn't matter if you rapted it

'cause it's sailing and it's gold

See a tree house somewhere in the sky

And that's where I'm going

Where somewhere is always

Yeah, and a beautiful blue breeze is blowing

Chorus

And I'll be ok, and I'll be ok

Be ok, be ok, be ok, be ok....
