You men, what you think that you're doing?  
breaking, all the rules that you're making  
and you men, who do you think that you're fooling?  
you're breaking all the pledges you've taken

Chorus

I was looking forward to some ticks  
to some kind of relics  
but it was only unknown  
in every city and in every town  
they know why you did  
the kids aren't stupid now  
no, the kids aren't stupid  
you men, who do you think that you're fooling?  
you're breaking all the places you've stolen

Chorus

I'm still looking forward to the day  
when you may regret  
but it's only unknown  
on the watch in every town  
they know why you did  
no, our kids aren't stupid now  
no, our kids aren't stupid

we gotta educate them  
we gotta educate them now  
x4

the kids aren't stupid now  
the kids aren't stupid  
who do you think that you're fooling?  
you men, I'm talking to you men  
yeah!
