Get ...around

No idea, what you're talking about

Feeling dumber in your presence

... and then you're finished

I just wanna punch you in the nose

Never care about the things you say

That's why your ... is gonna check the day

You are a ... now it's ...go... shows

I just wanna punch you in the nose

Never care about the things you say

That's why your ... is gonna check the day

Brute force, retaliation

Your hope ...we never cross the path

Trying to pay, desperation

You're ...such an idiot...

...shut your mouth

No idea, what you're talking about

Feeling dumber in your presence

... and then you're finished

I just wanna punch you in the nose

Never care about the things you say

That's why your ... is gonna check the day.
