[Chorus]

[3X]

shake it on down, baby  
shake it on down

shake it on down, baby

Paychecks come maybe  
But the net sums shady  
Your boss he got cash out the rectum baby  
So you hustle up quick  
Try to rustle up licks  
Babygirl, you involved in some muscle up shit

It's a meetin' in the ladies room  
Like the 80's tune  
This time you fin to play these goons  
In unison stomping  
All the registers are moppin'  
Your patna on the intercom  
"Yeah let's getting it poppin"  
Like y'all planned it  
They wasn't gonna hand it  
The boss called up and asked what y'all demanded  
You said

4X

shake it on down, baby  
shake it on down

They bomb dropping like a psych  
With the check cash spot  
Wishin you could put more than Top Ramen in the pot  
F the police  
This mess don't cease  
If you starve quietly  
That's called peace

We need to take 'em over  
Shake 'em and make 'em sober  
Ain't no jobs here and very little breakeola

They run bizz smoothly  
We shut down truly  
We gon' be unruly if they show up with the tulys

You see they bathin' in it  
You know the graven image  
Ain't doin' nothin' yet still they got the main percentage  
Before it's finished we gon' shake it on down baby  
Shake it down

CHORUS 4X

So here's the main thing  
Make your brain swain  
They drain the main vein sayin\that it's yellow rain  
Don't stick your tongue out, tryin' to drink a drop  
I'm tryin' to make the revolution and you speak of pop

You got stolin' checks and fake ids  
'Cause they got us gassed up but won't cut the cheese  
So you flush disease while the C-O-Ps swarm like a  
bunch of bees  
In court with a bunch of pleas  
It's a setup  
Mans round the world gettin' fed up yellin', "hey, cough  
the bread up!"

And just  
CHORUS 3X
