The Vesta is landing
The Vesta is landing
Without a captain
Without a crew
Down in the hole
Tied to the wheel
This ship of death
This ship is filled with rats
You better find your mother
You better look for cover
We make a choice
We make it every day
To get up in the morning
And to bear away
And to bear away
(Bear away)
You better find some cover
You better outlive your mother
(Bear away)
You better find some cover
This ship
This ship has a new captain
This ship is landing
We don't need a dock though
We need a sacrifice
We need a sacrifice
You better hide your babies
Until morning
(Bear away)
We make a choice
We make it every day
(Bear away)
To get up in the morning
To bear away
(Bear away)
Bear away, bear away!
(Bear away)
Bear away, bear away!
(Bear away)
Bear away, bear away!
Bear away!
You better outlive your mother

You better outlive your mother
YOU BETTER OUTLIVE YOUR MOTHER!
Bear away!
Turn up the lamppost
Bear away!
Stay out of the shadows
Bear away!
This is a plague like no other
Bear away!
We need a martyr
Bear away!
We need a victim
Bear away!
We need a sacrifice
Bear away!
Pray before sundown
Bear away!
Send your children to grandmas
Bear away!
Nail a cross to the door
(Bear away)
Bear away, bear away!
(Bear away)
Bear away, bear away!
(Bear away)
Bear away, bear away!
Bear away
