For the sign of the hammer  
... In memory of the ancient God  
I invoke your power  
God of War

Master of brutality  
We march against time  
Waiting for the war cry  
Where the drums make the laws  
Announcing one more battle

Screams of Pain!  
Panic and devastation  
Chaos and disorder  
Now take possession of this weak empire

Ruled by the macabre symphony  
We march between rotten corpses  
Where the smell of death made it's reign and it's  
dwelling

War! Extermination!

The soldiers of the New Order  
March under the laws of the Ancient Empire  
We are the incarnation of the Empire of One Thousand  
Years
