Heartbeat sounding, feel it pounding  
Pulsing pain into my soul

Coursing, flowing, bleeding freely  
Toxifying is your goal

[Chorus:]  
All because of you

Feeling crazy, feel stupid  
Feeling like I can't let go

Feeling angry, feeling nothing  
Feeling like I have to know

[Chorus:]  
All because of you

Constant screaming, search for silence  
Just to prove this ain't the end

Fighting, fighting, push resistance  
Free myself to breathe again
