Hey!  
You're at party at a club  
The music is loud and is kicking dub  
Friendly faces are all around  
The felling's good so you hang around

This crowd is tight tight  
Gonna party all night night  
Cause the feeling is right right  
Don't wanna fuss or fight fight

So you meet a girl, well, alright alright  
This is my feel for the perfect night  
You dance and sing, you're having fun  
You know this night has just begun

The crowd is tight tight  
Gonna party all night night  
Cause the feeling is right right  
Don't wanna fuss or fight fight

Tight [x3]  
This crowd is tight tonight!  
[X2]

Tight tight  
Gonna party all night night  
Cause the feeling is right right  
Don't wanna fuss or fight fight

Tight  
This crowd is tight  
Oh yeah, is tight  
Well, I said is tight

Tight tight!
