If the wind could blow my troubles away  
I would stand in a hurricane  
Get washed away in the drivin' rain  
If the wind could blow my troubles away  
Blow my troubles away

If the wind could blow my troubles away  
Tear the sadness from my face  
I'd look in the mirror  
I wouldn't see a trace  
If the wind could blow my troubles away  
Blow my troubles away

If the wind could blow my troubles away  
See me stand with a smilin' face  
Clothes all flappin' all over the place  
If the wind could blow my troubles away  
Blow my troubles away

If the wind could blow my troubles away  
I would stand in a hurricane  
Get washed away in the drivin' rain  
If the wind could blow my troubles away  
Blow my troubles away
