

## Murs "Def Cover"

Visit "[Def Cover](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Creep with me while i crawl through the hood  
Maniac lyricists just call me murs thats good  
You'll get crushed when I bust on beats  
and you'll never hear me holla bullshit for the streets  
im not anti-white, or anti-nigga, just anti-ignorant and  
anti idiot  
LP make the beat and aint i killin it  
dont care who you are, if i aint feelin it  
im tellin your ass  
fuck you and these labels thats be sellin that trash  
and these underground artists with their sales gone  
bad  
fuck with me ill do it sugar free  
and send you to the corner just to get my cash  
ill woop that ass  
put that on ur momma  
and get ready for the action cause i dont bring drama  
ima tell the world youre wack  
in every interview  
plus your squads kinda pale  
you need some color in your crew  
plus your first rap tape way back in '92  
you had slaughter, warren, slayer and firehouse  
thought this rap thing is cool hey i might try it out  
theres only do and do not  
there is no try  
hes in the ???? for true jedi  
you was scared to come to shows 'cause they let the  
lead fly  
now you have no heart no soul no funk  
and its 187 on you underground punks

Verse: Do you Like it? i can give a fuck how u feelin.  
feel this. feel this. feel this. do you like it? feel this,  
bitch feel this, bitch feel this

i was bumpin nocturnal and my mind started to travel  
on how i used to seek out mc's for raps to unravel

now yous think i cant battle rap  
'cause i roll on cadillac  
put your money where your pie-hole is and watch me

fuck you  
watch your cash like my name was jason biggs  
im makin kids wanna grow up to be astronauts again  
'cause they see bein an MC is not an option-win  
just a hungry motherfucker like me lookin for fresh  
meat  
to make em look foolish as hell over they're best beat  
i press heat to your ear like gause to a wound  
hopin that it goes platinum like those cosby cartoons  
if i dont get a plaque on my wall for platinum release  
ill still be a classic to ya'll with plaque on my teeth  
chain smokin brain chokin the shit outta rappers  
i had to end your beginnin to start the next chapter  
now im on some other shit like that ?? that common  
wears  
or the enron affair or andres hair  
somebody else might but i just dont care  
wut you say or where your from  
im the baddest motherfucker touch you down on  
kickdrums  
such as sick tongue i could be a ??  
just to wear this long beard to hide the IV  
my goal since i was young be a fly MC  
so i jumped off the gym junior high PE  
fell flat on my face everyone laughed at me  
now my flows so strong gravity defies me  
and i float on air without a pair of nikes  
so you just cant compare to pros real like these
