[Intro]

What up though
It's Murs, 9th Wonder
Murs 3:16, the 9th Edition
Shhhhhhh, shut your fat mouth, and listen

[Verse 1]

Anticipation got the deck stacked against me since the
outset
9th got 'em fiending for an instrumental version of an
album that ain't out yet
But now it's my outlet, and it feels so good to them
punk fans
When I'm still so hood, so good it's ridiculous, still
inicious
That means three times dooper than your favorite mc
riding round with a chauffer
These niggaz need Jesus, fuck it, niggaz need Oprah
All this killing and this pimping and these foul ways of
living
See, everyone's forgetting that the struggle's not over
I got sober, then got drunk again
Got my boy from Carolina, picked up the pen
Threw my nuts on the finish line, I +cum+ to win
While you nuttin' to lose, I'll shake you out your shoes
with ease, with moves parallel to those and other three
Couldn't wait for George to make the new Star Wars
scene
So I made my own episode 3:16
To answer all the rumors that been shooting through
your group
Beat stops Yes 9th really does make these beats on
Fruity Loops
Beat resumes But what does that matter?, this is
more than music
By buying this disc you have bought into a movement
Not a revolutionary, nothing but the truth I carry
change if you wanna change, that karma is for you to
carry
All I'm trying to do is lighten your load
So in between I'm getting faded, some of y'all getting

blowed
But I couldn't fall off and lose sight of my goals
So I got sober, got drunk again
Murs 3:16, let the fun begin
