See my crew got me censored cause I say too much
But these rap ass niggas do it way too much I'm always
into some shit They say I play too much But this shit
ain't a game These lames done bit our shit! They
wasn't screamin' independent before 1996 They was
shoppin' a demo On a label, got dropped Then they
came back screamin' "Underground hip hop" And I'm
supposed to except it? That's why you never see them
featured artist on my record They make good music,
so I gotta respect it But those two words Are as close as
we get to being cool and connected I'm calm and
collected Till someone pushed a button Like these rap
motherfuckers that be out there frontin' I can't hold
back I just gotta say somethin' You gotta understand I
feel it's my duty To bang for my fans So if you say it on
a record and I catch you contradicting I'm gonna step
right up And pull your card with the quickness This
culture is my life and y'all keep tryin' to make it
business So forgive me while I make my cash And keep
my heart in it Living Legends We own the underground
While y'all hoes just rent it Like that warehouse that you
lived in Deny it all day, but our influence is a given Plus
the whole industry Bit our live performance, tryin' to
steal our energy Your show wasn't hype when I used to
pay to see But now you jump around on stage lookin'
gay as can be It's plain to see Who's the leaders of the
pack That's why I can see Why my crew keeps comin'
back To do a song with, bond with you But y'all ain't
about shit So I'm not tryin' to get along with you So shut
your fuckin' mouth when you're talkin' to me Sayin' you
some successful independent MC All that yappin', man
please Your pockets are as broke as my fuckin'
Japanese I'm servin' L.D. Rollin' to L.D. Y'all still stuck on
CD-R so what the fuck you tellin' me? Absolutely,
positively not a motherfuckin' thang We invented with
game Y'all gotta think about us (With every tape you
slang) Y'all gotta think about us (Whenever your show
is lame) Y'all gotta think about us (When your girl ask
you Mid City Living Legends to the death how I bang
Mid City Living Legends to the death how I bang Bitch
