

## Murs & 9th Wonder

### "Love the Way"

Visit "[Love the Way](#)" on [MotoLyrics.com](http://MotoLyrics.com)

[Chorus] Ohh baby I love the way I love the way that  
you're walking (walking) That sexy way that you're  
talking (talking) Got everything that I'm missing (I'm  
missing) Girl I love the way Ohh baby I love the way,  
baby The way you say my name (my name) You make a  
man insane (insane) Ain't here to play no games, I love  
the way Ohh baby I love the way [Murs] The way we  
sleep together, we spoon so perfect Make that girl I  
met last June seem worthless The way your fingers fit  
right into my hand Perfect height and age, perfect  
shade of tan Sitting in the sand, watching sunset,  
simple Dinner and a movie, quality tiempo Laid back  
tempo, nothing too fast Slow and easy making this  
relationship last Laying in the bed, I'm warm and I'm  
cosy Slide next to me, put your cold feet on me The  
best part about you, the worst part about you That's  
how I know I love you and I can't live without you  
[Chorus] Ohh baby I love the way I love the way that  
you're walking (walking) That sexy way that you're  
talking (talking) Got everything that I'm missing  
(missing) Girl I love the way Ohh baby I love the way,  
baby [Murs] Turn off the Xbox, get my attention Kiss  
me, strip down, get down to business Still ain't old, so  
many years later Didn't think it could, only got greater  
Inside and outside, I know every part of you Know  
where you going before you even start to move Now  
that don't mean I don't love Every minute I'm spending  
in your arms when we hug They say we boring, all we  
do is watch TV You like cooking for me, your girl say it's  
cheesy Corny, traditional, all day I'm missing you  
Vision of us sitting on the couch and I'm kissing you  
Ohh baby I love the way [Murs] Kicked out the kitchen, I  
always leave a mess You know my strawberry Kool-Aid  
is the best Yes I always love you, hope it never change  
The way you kind of smile when you start to say my  
name I love the way that you do you And I hope you  
love the way that I'm doing you too Ohh baby I love the  
way { \*X3\* }
