Wheelchair, take him  
In sad eyes, compromise too  
You're gonna die, with the cat's seven horses  
In dough, we're all corpses

Fiend, drive through me  
Insert me  
Where I can sway through you...

We're brought to school, we're ignorant  
We try to learn and in the end  
We're all appealing thee (ignore it)

Lie to me  
Silverware,  
with the cuts and the bruises  
In your arm, in business-bra  
Aaaaaah

Fiend, drive me ohh  
Insert me aaah  
Where I can sway through you...

We're brought to school, we're ignorant  
We try to learn and in the end  
We're all appealing thee, ignore it
