Repress and restrain
Steal the pressure and the pain
Wash the blood off your hands
This time she won't understand

Change in the air
And they'll hide everywhere
And no one knows who's in control

You're working so hard
And you're never in charge

Your death creates success
Rebuild and suppress

Change in the air
And they'll hide everywhere
And no one knows who's in control

Change in the air
And they'll hide everywhere
And no one knows who's in control
