

Muse "Save Me"

Visit "[Save Me](#)" on MotoLyrics.com

Save me from my superstitions
Now I'm free, from this old condition
Wait just a while, and I'll get greet
you with a smile

Hold me 'cause I'm sure I'm hated
Promises, they are overrated
Wait just a while, while I'm
drowning in denial

Turn me into someone like you
Find a place that we can go to
Run away and take me with you
Don't let go I need your rescue

Watch me 'cause I'm on a mission
Hold me back, so I'm forced to listen
Don't let me go, 'cause I'm nothing
without you
