Game over,  
no time for goodbyes,  
looks like the end  
of this journey.

Computer,  
who knows where I am  
lost in this kind  
of an hyperspace

Red star,  
wherever you are,  
give us  
a new meaning

Red star,  
wherever you are,  
lead us  
to forgiving.

Suspended  
in cryogenic sleep,  
rocked by the waves  
of a pulsar.

The lifetime  
that I left behind,  
waiting to come  
to the age of light.

Red star,  
wherever you are,  
give us  
a new meaning

Red star,  
wherever you are,  
lead us  
to forgiving
