Who is that girl? I think it's kokaine kim

I've not seen her face in ages

Tell me where she's been

Oh kokaine kimberly is dancing by the door

Have you seen her slightly slender self

Sleeping on the floor?

Oh kokaine kim, that girls off the rails

Sparkling teeth, needle nights

Champagne fairytales

Oh girl from Timperley

Who is that guy your with?

I hope he treats you really very nicely

The two days youve got left to live
