As they say, two can play
But keep that song away from me
In my time too much love
Made me sad for so long

I was blind, can't you see
Through the long lonely night
Heaven knows, I believe
Won't you take a chance with me

Sometimes I get so blue
People say I'm just a fool
All the world, even you
Should learn to love the way I do

I was blind, can't you see
Through the long lonely night
Heaven knows, I believe
Won't you take a chance with me
