Here you come sucking my energy and you
Suck it up right off the street
Babydoll
You are sucking my energy
I drill it in my good hole so that I can see
You are so much bigger than me you are,
You are so much bigger than me
Babydoll
My raw hand my fever blister
Watch me watch me disappear
Here she comes her pants undone
All waste and void all waste and void
There you go in your nazi car
Oh baby what a whore you are
She's sits around with her old rag
How can I talk when you've, you've got the gag?
Here you come sucking my energy
Suck it up baby right from the street
Babydoll
In the dark I destroy what I began what I destroy
She hangs in the blossom tree oh
Babydoll just swings for me
Babydoll
Babydoll she's...chemical wedding chemical peel
I knife me and I slash mine and I knife me and I slash
mine
Stick it inside of me well here you are just as ugly as
me
Drill it in my good hole so that I can see yea
Drill it in my good hole so that I can see yea
Here you come sucking my energy
And you suck it up baby right from the street
Babydoll
She starts to stare into the sun
Now i, I want a cancer that the crooked eye spied
You are mine and my energy cos baby
You are so much bigger than
Babydoll
Little girl she's on the floor
She gets it all cos she's the whore
Little girl she's on the ground

She gets it off of falling falling down
Falling down no matter what
"i am, I am" she says, "i am not free" she says
Help me I am withering
Withering withering
