Look at me
I'm alive
I wanna jump but I don't know why
Don't wanna live
Don't wanna die
Just wanna see if I can fly

I'm desperate
I'm glorious
I'm going down with a vengeance
Hold on to me, hold on tight
And let's just see who gets out alive

It's too bad
'Cause no one cares
There's not an end
There's no one there

Can you fly?
You'll never reach me
I'm too high
It's my own myth
And I'll decide
To finish what I started
I...
I know the meaning of life

Look at me
I'm gonna jump
There's not a hope
I'm so far up
I'm glorious
And I defy
Gravity to even try
It's too late to stop me now
I wanna go from the speed of light

It's too bad
No one cares
There's not an end
There's no one there

Can you fly?
You'll never reach me
I'm too high
It's my own myth
And I'll decide
To finish what I started
I...
I know the meaning of life

Coming in from the light
I have to leave you behind
I know the meaning of life
It's dark below
It's still night
It's dark below
It's still night

Fly
(Fly baby fly now baby)
You'll never reach me
I'm too high
(My baby mine now baby)
It's my own myth
And I'll decide
(Cry baby cry now baby)
To finish what I started
I...
(Fly baby fly now baby)
I know the meaning of life

I'm just a flash
Light up the sky
Hey look at me
I'm still on fire
I hit the ground
I didn't see it
Oh I'm so sick
So glorious
