By the silent lake in us
Take a another walk on ice tonight
Before we find cold sparks
Only time can show us all that it cost
Well the fire is lost, cold sparks

Feelings, hours, ahead of us
Just our shadows and happy us, oh us
We are when we find cold sparks
And only time can show us all that it cost
Well the fire got lost, cold sparks
The fire is lost, cold sparks

Cold sparks

When we find cold sparks
And only time can show us all that it cost
Well the fire got lost, cold sparks
The fire is lost, cold sparks

Cold sparks
