I see our fate
I see our past
And all the things
that could not last

It's heavy on these eyes
Frozen as I hold this photograph

It's all we left
That's of any worth
And it's so much more
Than a thousand words

Now in this frame
Is our only way we can endure

(chorus)
I'll picture you and me always
And in this photograph we'll stay
I picture you and me always
And In this photograph, we're safe

And all of you
You're in my head
And all the words
I wish I'd said

Sentimental thoughts
Are overwhelming me again

As I stand
Through a lens of tears
A part remains of those fallen years

They're all in this frame
Memories I held to deceive you

(chorus x2)

Cold air
With this mask has broke in me

And just hope that things are all as they should be

I pictured you and me, you and me

I pictured

I pictured

I pictured

Oh I pictured

Oh I pictured

Oh I pictured

Oh I pictured

(chorus)

We're safe

We're safe
