From the moment we first met  
I knew the love was imminent  
You came just in time  
You made a lifeline  
And forever I'll be in your debt (debt)

My girls asked me  
Where I've been so I'll  
Tell them one more time again  
I'm chilling with you  
What else can I do?  
If you want me  
I have no intent

You're like sunshine  
You help me get through my cloudy days  
Change my perception of how love is made  
I can't imagine my world without you  
Sunshine
