Verse 1:

You used to be the one that I dream of
You used to be the one that I breathe on... Uuh...
I used to think that I'm the one you want
I used to think that I'm the one you love... Uuh...

Bridge:

But now things have changed for us
Things have changed for us

Chorus:

I'm so glad that I let you go, coz I'm stronger than
before
I don't need you here no...
I'm so glad that I let you go, coz I'm stronger than
before
I don't need you here no more

Verse 2:

You used to be the one that I lean on
You used to be the one that I live for... Uuuuh...
I used to think that I'm the one you want
I used to think that I'm the one you love... Uuuuh...
