Streetlights fade slow,
hand in hand we move on,
no goodbyes as we go,
we're passing hands from a sideshow,
(hand in hand)

Here we stand,
it's not over (it's not over) yet,
and it's too late to turn back now,
(turning back now),
together we went past a miracle,
and it's too late to turn back now.

Here we stand,
it's not over (it's not over) yet,
and it's too late to turn back now,
(turning back now),
together we went past a miracle,
and it's too late to turn back now, now.

If i could say a thousand words,
not one would put you down,
If i could say a thousand words,
not one would put you down, down
