Hey you! Have you thought this through?
I'm caught in the trail left behind you.
Hey you! I'm unlikely to be giving in
You need discipline

What now? What happens to you?
Stand back; take a look at what's around you
All this you're likely to lose
Start listening. You need discipline.

Without a worry
In the world
You've got to change
Change your ways.

Hey you! Have you thought this through?
I'm caught in the trail left behind you.
Hey you! I'm unlikely to be giving in
You need discipline

Without a worry
In the world
It's time to give
Give not take

You have it all to gain
You have it all to gain
You have it all to gain
You have it all to gain

Without a worry
In the world
You've got to change
Change your ways.
Without a worry
In the world
It's time to give
Give not take
