It's all a matter of wich train to choose  
Time schedules to follow with eyes  
It's all a matter of wich train to choose  
Time schedules to follow with eyes  
In search of the next coincidence  
Time to supply a lack in organisation  
Time to supply a lack in isolation  
Time to supply a lack in organisation

Tic with the fingertip what will be the time of arrivals  
And the time of departures

Departures and arrivals are the same thing,  
It all depends on the place where do you weant to go to

Do not throw anything out the window  
Except in case of massive danger

Tic with the fingertip what will be the time of arrivals  
And the time of departures

Departures and arrivals are the same thing,  
It all depends on the place where do you weant to go to
