

My Chemical Romance "Make Room!!!!"

Visit "[Make Room!!!!](#)" on MotoLyrics.com

Make room, make room
Down on the coffin there's a... or two
Dead chique, so cool
The cannibals are starving when they're looking at you
Tank tops, jet stream
Karate lessons with killing machine
White lines, nose bleeds
I know you get excited when the cameras go

Me, you and all of these living dead
Burning up in the sun where the bodies add
Sitting here with you in misery
Anybody gonna come and rescue me, lalalaa

Ooh, wahoo

Make room, make room,
One day you're gonna have explaining to do
Drag star, so cool
There's only room for one and neither one is you, you,
you

Me, you and all of these living dead
Burning up in the sun where the bodies add
Got a taste for the cash and androgyny
Anybody wanna come and rescue me

All right, oh...
Well all right... (x7)
She's all right
Everybody in the room is all right

Everybody wants to change te world
Everybody wants to change te world
But no one, no one wants to die (x3)

We're never gonna change the world
We're never gonna change the world
Cause we are never gonna die!
