Go!

Stay

The lights already low enough to play  
Can you catch me when I'm falling down  
And I'll go and come home  
And if you try to make the most of this  
And do what you always told me  
When you made me walk away

And would you stay right here  
Did I tell you  
That someone out there loves you  
If you stay right here  
Did I tell you  
That someone out there loves you after all

Sometimes the things can always be so far  
And sometimes you could look me back  
And walk down to catch this reason  
I tried to make the most of this  
And could you make me miss you when we  
Dance beneath the stars

And would stay right here  
Did I tell you  
That someone out there loves you

If you stay right here  
Did I tell you  
That someone out there loves you

If there's no one, no one out there  
Is there no one, no one who cares  
If there's no one, no one out there  
Is there no one like you to share  
But would you ask yourself  
Would you ask yourself

Stay

And would you stay right here

Did I tell you  
That some out there loves you

Stay with me stay right here  
Stay with me stay right here  
Stay right here stay with me  
Stay with me Stay with me  
Stay with me Stay with me  
Stay with me Stay with me  
Stay with me Stay with me  
Stay with me Stay with me

Stay Stay Stay Stay
