

## **My Darkest Hate "Army Of Vengeance"**

United we stand  
In front of the beast  
We have the power  
Celebrate the feast

I hear the calls  
I know them well  
Brothers of vengeance  
Straight out of hell

Eyes of fear  
Deserve my hate  
Hail to thee  
I grasp your fate

We are the army  
Army of vengeance

Put aside rumour  
No sense at all  
The strong will survive  
The weak will fall

First strike is deadly  
If not - we return  
Armageddon  
Pray, see and learn

Enough words are spoken  
Vengeance is mine  
Bleed and suffer  
You're the next in line
