

## My Darkest Hate "War"

Visit "[War](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Lust has become their fate  
Being a perfect game  
Death is everywhere  
Hatred, no one cares

War  
Games  
Dead  
Fate

War, we will win your war  
War, we will call out war  
War, we will win your war  
War, we will call out war

Fight to force a change  
No remorse, a game?  
Shadows of my fate  
Conqueror it's not too late

War  
Games  
Dead  
Fate

War, we will win your war  
War, we will call out war  
War, we will win your war  
War, we will call out war
