Don't they see the sky burning and claiming every
hope?
Can't they feel the earth breaking and scattering the
fold?
This act surely is past the scope of clemency and any
shroud of mystery.
Let's return now; say the word and we'll retreat to better
scenes.
Coastlines and mountainsides, perfection dripping
from the seams.
How could miracles reveal the mysteries and end in
tragedy?
Don't let them boast.
They'll claim the victory if you give up the ghost.
I stand awaiting the call for the rescue.
One word and empires fall.
You're calculating the point for your next move, but this
is taking too long.
Has courage fled for newer brides, and traded truth
for alibis, that I alone of dozen strong should witness
your demise?
Before your mother's eyes,
Whisper "relief."
I know you have the power!
Is this the way it's supposed to be, the shepherd slain
by all the sheep?
They're cursing your name.
You're fading away.
When will the empire fall?
They spit in your face.
It's more than I can take.
Is this the end of it all?
Don't touch him; this man has done nothing wrong.
