Remind me to wake up,
Forget to sleep.
Drive my car to the ocean,
Escape these dreams.
Twist my arm with emotion,
Refuse to see.
Hold my heart to the sunrise,
And let it free.

Can I take you away with me, you'll be there,
In my mind we'll share and pretend to care.
While I scream your name after ever song,
And remind myself that it won't be long till you're here.

Remind me to pass out,
Or drink some more,
I lost my thoughts with my keys,
Still in my front door.
Turn the TV to silent,
Remove my clothes.
Hide the dope in the cupboard,
So no one knows.

Can I take you away with me, you'll be there,
In my mind we'll share and pretend to care?
While I scream your name after ever song,
And remind myself that it won't be long till you're here.

I might have to take a chance tonight,
Let a stranger walk into my life.
And I can close my eyes and scream to you,
Will you scream back to me if you love me to?

Can I take you away with me, you'll be there,
In my mind we'll share and pretend to care?
While I scream your name after ever song,
And remind myself that it won't be long.

Can I take you away with me, you'll be there,
In my mind we'll share and pretend to care?
While I scream your name after ever song,
And remind myself that it won't be long till you're here.
