She's got my back,  
she's my little heart attack.  
Every single day I try to figure out,  
how I can't let you down.

I told her I'm not sober  
it could be a mistake.  
But her shirt went off  
her pants came off  
and now it's too late.

I'm a sinner, you're a saint  
I'm a liar and a fake.  
But baby that's just me, you know.  
I'm a sinner, you're a saint,  
I'm a liar and a fake.

So just lay your head back  
My little heart attack.  
I'll give you everything (everything you'll never need)  
Better bet that, my little heart attack,  
keeps crying cuz she's catchin on to me.

So I lost my shot,  
talk the talk and walk the walk.  
Every single girl that I think about,  
think I can't live without.

A reason, the seasons  
are chaning again.  
Baby believe me you need me  
You'll see me again.

I'm the killer, you're the queen  
She was comin' in between,  
and that was more than you could take.

I'm sinner, you're the saint  
I'm a liar and a fake...

So just lay your head back,

my little heart attack.  
I'll give you everything (everything you'll never need)  
Better bet that, my little heart attack.  
Keeps crying cuz she's catchin on to me.

Watched my bird fly away today,  
She's better off anyway. (she's better off anyway 2x)  
And I spoke to God today.  
She said she's better off anyway. (She's better off  
anyway. 2x)

I'm a sinner, you're a saint,  
I'm a liar and a fake,  
Well baby that's just me, you know.  
I'm a sinner, you're a saint,  
I'm a liar and a fake...

So just lay your head back,  
My little heart attack.  
I'll give you everything. (everything you'll never need)  
Better bet that, my little heart attack.  
Keeps crying cuz catchin on to me.

(So just lay your head back)  
She's better off anyway  
(So just lay your head back)  
Everything you'll never need  
(So just lay your head back)  
She's better off anyway  
(So just lay our head back)  
She's catchin on to me
