Someone's gonna die tonight, no matter what it takes  
Someone thinks obedient's a bomb around the waist  
Someone hopes the will of god is buried in this plan  
Someone volunteered, it's an honour here I am

Use me

Someone's carrying a gun to enter into war  
Someone's fighting for a cause that seems worth  
dying for  
Someone chants a speech of hope to fight uncertainty  
Pride and glory to this land we'll save a world that's lost

Use me

Oh, if you wanna use someone  
If you gonna use someone, use me

Someone's gonna die tonight for being who he is  
Someone's face is different, wounded by a kiss  
Someone's carrying a weight that someone else has  
lost  
Someone's gonna die tonight, I'll do it, use me

If you wanna use someone, if you wanna use someone  
If you wanna use someone, if you wanna use someone  
Oh yeah, if you wanna use someone

Use me
