I know the name of a miracle man
Who when he touches your hurt
Holds your heart in his hand
I know a miracle man
I feel the breeze that can cool my skin
From the heat of this world
The heat that you're in
Oh what a position to be in
You lift me up and down and say
Now what's your problem

You should be dancing, you should be dancing
You should be up on your feet
You should be dancing

I've had erased from the back of my mind
All the scenes of abuse
That have happened over time
From the back of my mind
I can hear the voices
Calling me to dance
Get out on the dance floor
While you have the chance
What are you fighting

You should be dancing, you should be dancing
You should be up on your feet
You should be dancing to the beat
Should be dancing
You should be dancing

The shackles have been taken
Your feet will start the shaking
So do it like that, yeah do it like that
And the eyes are on the saved
And the way that we behave
And so do it like that, yea do it like that
The rhythm's gonna call
And it's irresistible
And so do it like that, yeah do it like that
The rhythm's gonna call ya
Rhythm's gonna call, yeah the rhythm's gonna call you

You should be dancing, you should be dancing
You should be up on your feet
You should be dancing to the beat
Should be dancing
You should be dancing, you should be dancing
You should be up on your feet
You should be dancing on the street
Should be dancing
You should be dancing
