

## My Heart To Joy "Endless Fall"

Visit "[Endless Fall](#)" on MotoLyrics.com

It's a hole in my head - anywhere  
A gate to another world  
In my mind, I do the things  
They make me dreaming and alive  
Just in the frame of time  
Here in my own old sign  
Feel the real, that you can understand

Close my eyes the dark is back  
I see the world so clean and light  
The universe it's liken a worm  
A worm in my mind

Close my eyes  
See deep in myself  
I fall in a hole - an endless fall  
Deep down in the ground of my dreams  
My fear ending in own reality
