I'm sorry for calling  
To leave this message  
You probably got the first one

My face was hypnotized  
From the first time you arrived  
Impressions gone up in smoke  
I wondered if you'd come over here

Custom galleries  
Full of pictured things  
Like your picture-perfect make-up  
To catch the attention  
You caught long ago  
I wish it could begin now  
But we're miles from starting out

So what are you really after?  
This time i know what you're thinking of
