Investigation now begins
Man at work deep within
Diggers for fantastic gain
Still dreams in violent areas

A careful search on every point
Be prepared for highest joy
Thinking: no - crying: yes
Still dreams in violent areas

Still awakes a dream
In the forbidden area
The neverending lies
Drive emotional vibes

Now the things are turned around
Shiftless sinks the highest pride
Sudden truce at battleground
Still dreams in violent areas

Unexpected benefactors
Revenging sweetest desecrations
Unchaste childlike fascination
Still dreams in violent areas

Crying out in response to fright
Dive into delicious delight
Being of infected might
Still dreams in violent areas
